PURPOSE OF HANDBOOK

This handbook has been prepared to create a better understanding among students, parents, and teachers of the basic policies and practices used in the operation of the Holbrook John F. Kennedy School. No handbook can fully set forth all the policies and practices of a school. Therefore, this book should not be considered as the ultimate authority of any matter. This does not diminish its usefulness, it merely takes notice of the fact that school officials are obligated to assess and respond to every situation in the light of how it affects the education and development of, not only individual students, but the student body as a whole. The administration reserves the right to alter any of the recommended consequences for actions prescribed within this student handbook, so long as students are accorded appropriate due process.

The purpose of an education is to help each student become an effective, informed, positive citizen in our community. Please use this handbook to familiarize yourself with the John F. Kennedy School's curriculum, daily operational procedures, and related student services. By adhering to the policies and procedures, you will be able to get the most out of your education while at John F. Kennedy School and allow your classmates to do the same.

The Massachusetts General Laws and/or applicable Federal Laws will supersede the Provisions of this handbook to the extent that any provision of this handbook is in conflict with those laws.

ABSENCES/TARDINESS

Students are required to attend school on a daily basis. **Please call or email the school if your child will be absent.** If the school is not notified by 10:00am, the school nurse/staff member will contact you to inquire about your child's absence from school.

Students must arrive to school by 11:45 to be marked as present for the partial day. Students must be dismissed after 11:45 to be marked as present for the partial day.

When your child returns to school from an absence, **a note signed by a parent or guardian acknowledging the absence is required. This letter is required for all absences regardless of the duration.** Absences of five (5) days or longer additionally require a note from a physician prior to the school readmitting your child to class. All medical documentation should be submitted to the office within 5 school days of the absence.

When students are absent from school for the purpose of a family vacation, their learning is interrupted. We encourage families to plan vacations during the regular school vacation schedule. Students are responsible for all work missed during periods of absence and are responsible for obtaining assignments from their teachers. When students are absent due to illness, parents/guardians who call to report this absence in the morning may request that day's assignments to be sent to the office to be picked up at the end of the school day. Teachers may have the student make up work from missed school days in these ways: during recess periods, at home, or by staying after school.

Excused absences are those absences accompanied by documentation. Documentation may include: medical appointments, religious holidays, death of a family member, court appearances, orthodontist/dental appointments, or illness supported by a physician.

Unexcused absences include those without a medical note, family vacations, or illness absences without a physician's note.

Parent(s) or Guardian(s) will be notified when a student has at least five days in which the student has missed two or more classes/periods (unexcused) or who has five or more unexcused absences in the school year. A meeting will be scheduled with the building Principal (or his/her designee), the Parent(s)/Guardian and the student to develop an agreed upon action plan to improve the student's attendance, with input from relevant school personnel and officials from relevant public safety, health and human services and nonprofit agencies.

Massachusetts State Law, Chapter 76, Section 2 provides for duties of parents as follows: Every person in control of a child shall cause him to attend school on a daily basis and, if he fails to do so for seven days sessions or fourteen half-day sessions within a period of six months, he shall, on complaint by a supervisor or attendance officer, be punished. The school may take legal action in the event a student of mandatory school age is absent without excuse for periods set forth by statute.

Pupils are expected to be in their classrooms by 8:45am. Almost **all** tardiness is avoidable. Not only does tardiness disrupt the routine of the school, but also it endangers the best development of the child. A habit of punctuality demonstrates reliability. Lack of such a habit cannot help but work against the success of the student. **All late students must be escorted into school and accompanied by a parent/guardian.** Upon arrival, parents/guardians will be required to sign their child in at the main office.

ATTENDANCE – EXTENDED ABSENCE FOR ILLNESS

In the event of an extended absence, the school nurse will act as a liaison, if necessary, between home and school. Students may be eligible for Home or Hospital Instruction in cases of extended absences for illness, as described below:

Upon receipt of a physician's written order that a student must remain at home or in hospital on a day or overnight basis for medical reasons for a period of not less than fourteen school days during any school year the principal or designee will arrange for the provision of educational services in the home or hospital. The medical statement from the physician must include, at a minimum, the date the student was admitted to a hospital or confined to home, the medical reason and expected duration of the confinement, and what medical needs should be considered in planning the student's educational services.

The services will be provided with sufficient frequency to allow the student to continue progressing in his or her educational program, as long as such services do not interfere with the medical needs of the student. The principal will coordinate such services with the Special Education Administrator for students who are eligible for special education. Home/hospital services are not considered special education unless the student has been determined eligible for special education and the home/hospital services are included on the student's IEP.

If, in the opinion of the student's physician, a student eligible for special education services is likely to remain at home, in a hospital, or in a pediatric nursing home for medical reasons for more than 60 school days in any school year, the Special Education Administrator will without undue delay convene a Team to consider evaluation needs, and, if appropriate, to amend the existing IEP or develop a new IEP suited to the student's unique circumstances.

ACADEMIC TESTING

Fountas and Pinnell – Benchmark Assessment System

The Fountas and Pinnell Benchmark Assessment system (BAS) is an assessment tool used to evaluate a student's reading and comprehension ability. Teachers can determine a student's independent and instructional reading level and group students for reading instruction. This assessment tool also measures student's progress across a school year and across grade levels.

Orton - Gillingham

Orton – Gillingham is a multisensory approach to teaching phonetic rules and word attack strategies. The techniques in the program provide direct, explicit instruction in the fundamental structure of language. This instruction moves from simple sound/symbol relationships and progresses to more complex concepts.

ALCOHOL, TOBACCO, AND DRUGS

A student shall not, regardless of the quantity, use or consume, possess, buy or sell, or give away any beverage containing alcohol; any tobacco product, including vapor/E-cigarettes; marijuana; steroids; or any controlled substance. The use or consumption by students of alcohol, tobacco products, or illegal drugs on school property or any school function is strictly prohibited.

Additionally, any student who is under the influence of drugs or alcoholic beverages prior to, or during attendance at or participation in a school-sponsored activity, will be barred from that activity and may be subject to disciplinary action.

Teaching About Alcohol, Tobacco, and Drugs

In accordance with state and federal law, John F. Kennedy School provides age-appropriate, developmentally appropriate, evidence-based alcohol, tobacco, and drug prevention education programs for all students. John F. Kennedy School students participate in the following educational programs to prevent alcohol, tobacco, and drug use:

- Second Step
- Officer Phil Safety Program

These alcohol, tobacco, and drug prevention programs address the legal, social, and health consequences of alcohol, tobacco, and drug use, with emphasis on nonuse by school-age children. The program includes information about effective techniques and skill development for delaying and abstaining from using, as well as skills for addressing peer pressure to use alcohol, tobacco, or drugs.

The objectives of this program are as follows:

- To prevent, delay and/or reduce alcohol, tobacco, and drug use among children and youth.
- To increase students' understanding of the legal, social, and health consequences of alcohol, tobacco, and drug use.
To teach students self-management skills, social skills, negotiation skills, and refusal skills that will help them to make healthy decisions and avoid alcohol, tobacco, and drug use.

ARRIVAL AT SCHOOL

Students should **not** arrive before 8:30am. Supervision is **not** provided before this time, and students will not be allowed inside the building. The only exception is for those students enrolled in the Champions before school program. Students are considered tardy at 8:45AM.

For the safety of students and staff – all school doors are locked. Visitors must enter using the front door only and sign in at the front office.

BICYCLES

Bicycles may be ridden to school. Each bicycle must have its own lock and must be locked in the bicycle rack. **Helmets are required for all students.**

BUS TRANSPORTATION

In order to be provided with bus transportation, pupils in grades 1-5 must reside at least one (1) mile from the school. All kindergarten students qualify for a bus regardless of distance. The following rules apply to all bus riders. Students are **not permitted** to change buses for any reason unless there is an emergency.

- In order to ensure their safety and the safety of others, bus drivers are in complete charge of buses while transporting children. A bus monitor may be assigned on various routes to assist the bus driver.
- In order to ensure their safety and the safety of others, students must cooperate with drivers and/or monitor in every way.
- Bus pupils will be picked up and discharged at their assigned stops on regular bus routes. Any variation from this procedure requires a parental note and administrative approval. Bus pupils who need a change to their bus route pick up or drop off location need to complete a bus transportation change request form. The request is subject to administrative approval with input from the bus company liaison when necessary. Pupils who are usually transported by school bus are allowed to use other means of transportation if a note signed by the parent/guardian is received by the school stating permission.
- In case of infractions of rules set forth in this policy, the school bus driver or monitor shall report, in writing, the name or names of the offending students and the nature of the offense to the principal.
- The following actions will be considered infractions of the rules governing conduct:
 - Throwing objects, pushing, shoving, or fighting, indecent or abusive language, possession or use of tobacco products, physical or verbal abuse of other students or the driver, refusal or intentional failure to obey the driver or posted rules, defacement of the bus, inappropriate or unsafe behavior at the bus stop.

If a student misbehaves on the bus, the driver or monitor will submit a bus discipline report to the principal. Students who misbehave can be suspended from riding the bus and from coming to school. The following guidelines will be considered in determining consequences for misconduct on the bus. However, even a single incident of serious misconduct can result in exclusion from the bus on a long term basis. If a student is suspended from riding the bus, he/she is expected to be in school and transportation will be the responsibility of the parents/guardians.

First Suspension – The building administrator will review the bus discipline report, hold a hearing with the student, suspend the student from school or bus for one school day, call parent, and send a follow-up letter home. The student may return to school or ride on the bus without a parent meeting if the student is cooperative in addressing the behavior.

Second Suspension – The building administrator will review the bus discipline report, hold a hearing with the student, suspend the student from school or from the bus for three consecutive school days, call the parent, and send a follow-up letter home. A parent meeting with the principal will be scheduled.

Third Suspension – The building administrator will review the bus discipline report, hold a hearing with the student, suspend the student from school or the bus for five school days, call the parent, send a follow-up letter home, and review the student's discipline history. A parent meeting with the principal will be scheduled.

CELEBRATIONS

No outside food is permitted for celebrations due to student allergies. In the event that food is being used as part of the curriculum, a note will be sent home to families with the option to "opt out".

CELL PHONES

Cell phone use has become an increasing issue and disrupts the educational process. Between the hours of 8:30am and 3:00pm students may **NOT** use their cell phone for **any** reason. Cell phones must be turned off and kept out of site. If a student is seen with a cell phone, he/she will receive one (1) warning. Upon a second infraction the cell phone will be taken from the student and will be turned into the main office. Parents/guardians will need to pick up the cell phone at the school.

JFK respectfully asks that cell phone use be limited to emergencies only by parents/guardians and visitors upon entering the building. Thus, all cell phone conversations should be held outside to avoid disruption while speaking to school staff.

CHANGE OF ADDRESS AND TELEPHONE NUMBER

Please advise the school immediately when an address change occurs. In case of an emergency it is of the utmost importance that the school be informed of current information. In addition, if contact person's addresses and/or phone numbers listed on the emergency cards change, please notify the school as soon as possible. To maintain the safety and security of our students, it is vital that copies of all legal documents related to the child (custody, guardianship, restraining orders, etc.) be filed in the school office **annually** and again when any changes are made. This ensures that records are up to date in the event of an emergency.

CLASSROOM VISITATIONS

Parents wishing to observe their child(ren), current program, or a potential placement must contact the Director of Pupil Personnel Services and/or Principal. This request must be made five days in advance. The Director of Pupil Personnel Services or designee shall contact the parent(s) for initial scheduling conversation within five (5) days of receipt of the parents' request. When a parent requests an observation of a special needs student or program, the Director of Pupil Personnel Services or designee will seek approval from the building Principal before it is processed. Such approval may only be withheld for those reasons outlined within law and DESE regulation. The Director of Pupil Personnel Services and/or Principal will work with the classroom teacher and the observer to set up the specifics of the observation (including, but not limited to, scheduling and placement of the observer in the classroom). The number, frequency, and duration of the observation periods will be determined on an individual student basis in accordance with law and regulation. The start and end time of observation periods and a schedule of observation periods will be stated in advance. In order to minimize classroom or student disruption, the length of individual observation periods may be limited. If the observer is not the parent, the parent must sign a release for the individual to observe. The number of observers at any one time may be limited. The observer will be informed that he/she is not to interfere with the educational environment of the classroom. If his/her presence presents a problem, he/she will be asked to leave. This notices is particularly important, since the presence of parents can influence both the performance of their child(ren) and those of others. For further guidelines on classroom visitations, please refer to Holbrook Public Schools Policy on Observations, File: IHBA.

CONDUCT CODE

The purpose of this conduct code is to provide for the right of every student to participate in an orderly and safe atmosphere while on school property, in the classroom, and attending school activities. Please review the conduct code together as a family. Thank you for your cooperation!

Application of the Conduct Code - The Conduct Code is applicable to all students and will be applied free of discrimination based on race, national origin, religion, gender, gender identity, sexual orientation, or disability.

The goal of the John F. Kennedy School discipline code is to create an orderly, productive academic environment essential for the effective, efficient, and safe operation of the school. Appropriate behavior as a responsible school citizen and community member is expected. The intention of this code of conduct is to provide students with information about the school's standards and guidelines for consequences of the rules and regulations. It is not possible to list every type of behavior or circumstance that may lead to disciplinary action. Students are expected to recognize that any conduct substantially disrupting the educational goals or functioning of the school, whether or not listed in the Code of Conduct, may result in disciplinary action. For most offenses, corrective action will be taken before more extreme disciplinary actions are utilized. Prior disciplinary record, academic progress, seriousness of the incident, mitigating circumstances, and other relevant facts will be considered.

Appropriate Student Conduct – The Holbrook Public Schools will provide the experiences, which foster growth, understanding, and maturity to comply with the expectations of a student code.

Fostering good manners teaches children to be respectful of people and property. We encourage students to respond politely to their classmates and staff members. All John F. Kennedy School students participate in the Second Step Curriculum. This research-based program integrates social-emotional learning into the classrooms, which decreases problem behaviors and increases whole-school success by promoting self-regulation, safety, and support. Students are given opportunities to participate in this and other programs promoting responsible citizenship.

General Expectations – It is expected that students will:

- **Be respectful of self, others, and surroundings.**
- **Be responsible and safe at all times.**
- **Be ready and prepared at all times.**

- Keep themselves well groomed and neatly dressed at all times. Students should remember that they represent their school to the community. All attire should be modest and appropriate for students. Any top with straps, such as tank tops, muscle shirts, and sundresses will need to be modestly covered. Any form of dress or hairstyle that is considered contrary to good hygiene or that is distracting or disruptive in appearance and detrimental to the purpose or conduct of the school will not be permitted.

When appropriate to the circumstances, teachers will use these types of interventions to address inappropriate conduct. For particularly serious or chronic misconduct, the teacher will refer the student to the principal or designee. This may result in a parent/student/administrator conference and/or exclusion from school.

Interventions by classroom teachers to address the above behaviors

- Verbal correction
- Seat change
- Loss of recess or classroom privilege
- Parent notification
- Student/teacher conference

In many circumstances, student misconduct at school may be effectively addressed through home contact, supportive services, and/or some form of detention. Parental/guardian input about such

matters is often helpful. However, suspension remains within the rights of the school, particularly in instances of flagrant offenses or repeated disregard for school rules and policies.

SUSPENSION

Students may be suspended at the discretion of the assistant principal or the principal, subject to applicable procedural requirements that are described in the Appendix, beginning on page 22.

Except in the case of the "Statutory Offenses" as described in M.G.L. ch. 71, §37H and 37H1/2 described in the Appendix on page 31 and 36, students may not be suspended more than 90 days in a school year, and school staff will avoid suspensions of more than 10 days until alternatives such as positive behavioral interventions and supports have been tried, as appropriate. Alternatives may include the use of evidence-based strategies and programs such as mediation, conflict resolution, restorative justice, and positive behavioral interventions and supports. Conduct that may lead to suspension include use of repeated violations of school rules and the directions of authorized in school personnel.

Students who are suspended will be expected to make up all work missed while suspended, and no academic penalty will be accrued if the work is made up satisfactorily. If the student is excluded from school for more than ten (10) consecutive days the student will have an opportunity to receive education services in order to make academic progress through the school-wide education service plan.

Due Process for Suspension for Conduct other than "Statutory Offenses" is described in the Appendix at page 31.

Examples of Conduct that may lead to suspension

The following specific infractions of school rules may result in suspension and/or expulsion:

- Leaving the school without authorization
- The use or possession of tobacco products on school property. This includes all electronic nicotine delivery systems
- Vulgar or abusive language
- Assault or fighting with another student
- Use, sale, or possession of alcoholic beverages or tobacco products, including "vipes"
- Vandalism or fire setting
- Insubordination and actions detrimental to the educational environment or safety of others
- Stealing
- Bomb threats/false alarms
- Bullying, harassment
- See also, conduct under Statutory Offenses below

Any suspension includes the student being excluded from school activities, such as outings or field days.

EXPULSION/SUSPENSION FOR STATUTORY OFFENSES

Students may be suspended or expelled from school for the following conduct governed by state statute, sometimes referred to as "Statutory Offenses." (See provisions of M.G.L. c. 71, §37H on page 36.)

- Possession of a controlled substance. (See also Drug Policy on page 5.)
- Possession of a dangerous weapon. (A "weapon" is defined as any object which, regardless of its inherent, primary and/or common usage, is employed by an individual, to kill, to maim, to injure, to threaten, to intimidate and/or to otherwise endanger the physical, mental and/or emotional welfare of another person.
EXAMPLE: A ball-point pen, when used to complete written assignments IS NOT a "weapon." The same pen, however, when wielded by a student, in an effort to either threaten and/or inflict bodily harm upon another student.
- Assault on educational staff. Students should note that "assault" includes not only offensive physical contact, but also threats of such contact.

Students charged with or convicted of a felony. A student may be suspended/expelled, if charged/convicted of a felony, even when based on actions that did not occur on school property or school related events if the principal determines that the student's continued presence in school

would have a substantial detrimental effect on the general welfare of the school. Any student charged with a felony **MUST** meet with the principal. (See the provisions of M.G.L. c. 71, §37H ½ on page 37.)

Due Process for "Statutory Offenses" is described in the Appendix at page 36.

Students with Disabilities

The Individuals with Disabilities Education Act (IDEA) provides eligible students with certain procedural rights and protections in the context of student discipline. A brief overview of these rights is provided below:

In general, students may be excluded from their programs, just as any other student can be, for up to ten school days per year. However, when a student is excluded from his/her program for more than ten school days in the school year, school staff may be required to provide alternative educational services for the student. In addition, in many instances, the student's Team must convene to determine whether the student's behavior was a direct result of his/her disability (a "manifestation determination").

If the Team determines the behavior was not a direct result of the student's disability, the school may discipline the student according to the school's code of student conduct, except that the district must continue to provide the student with educational services during the period of suspension or expulsion, as determined by the Special Education Team. However, if the Team determines that the behavior was a direct result of the disability, the student may not be excluded from the current educational placement (except in the case of weapons, drugs, or serious bodily injury) until the Team develops and the parent(s)/guardian(s) consent(s) to a new IEP. The Team must also conduct a functional behavior assessment and develop or revise a behavioral plan for the student.

In the event a student possesses, uses, sells, or solicits a controlled substance or possesses a weapon, or seriously injures an individual at school or a school function, a school may place a student in an interim alternative education setting for up to 45 days, as determined by the Team. Hearing officers may also order the placement of a student in an appropriate interim setting for up to 45 days upon determination that the current placement is substantially likely to result in injury to the student or others.

When a parent(s)/guardian(s) disagrees with the Team's decision on the "manifestation determination" or with a decision regarding placement, the parent(s)/guardian(s) has a right to request an expedited due process hearing from the Bureau of Special Education Appeals. Similar procedures apply to students with plans under Section 504 of the Rehabilitation Act of 1973.

Additional information regarding the procedural protections for students eligible for services under laws providing for services for students with disabilities can be obtained from the Director of Pupil Personnel Services who can be reached at the Holbrook Public Schools' Central Office.

COUNSELING

The counseling department is available to help students resolve problems related to personal, social, or academic areas. Short term counseling services may be provided in a one to one, small group, or classroom setting. The opportunity to participate may be initiated by a parent, teacher, or the student. Parents/guardians may call the adjustment counselor to make an appointment for further information about services.

The nature of the information discussed is held in confidence. If there is a concern about the child attempting to harm him/herself or others or concerns of harm as outlined in laws related to mandated child abuse reporting, then a social service agency or communication to the parent/guardian regarding access to further counseling support will be warranted.

CURRICULUM

Students receive instruction in Math, Reading, Language Arts, Science, and Social Studies. Teachers follow the standards and curriculum outlined within the Massachusetts Curriculum Frameworks which now incorporates the newly adopted Common Core State Standards for English Language Arts and Literacy in History/Social Studies, Science, and Technical Subjects. These documents are available for review in the school office or by contacting your child's teacher directly. *The new Common Core Standards can also be viewed at: <http://www.doe.mass.edu/candi/commoncore>

ELECTRONIC DEVICES

Cell phones, beepers, smartwatches, and personal audio and visual equipment (including photography with cell phones of students or staff), may **not** be used during school hours (8:30-3:00). Students using these items during the school day are subject to school discipline and the items may be confiscated. If a student is using an electronic device and does not comply with a teacher's request to put it away or surrender it, the teacher should refer the student to the office for discipline. In most cases, confiscated electronic equipment will be returned to the student at the end of the school day. In the case of continued infractions, confiscated equipment will be returned to parents/guardians after a meeting. Students are hereby reminded that the John F. Kennedy School and its staff are not responsible if items a student brings to school are lost or stolen.

HEALTH SERVICES

The school nurse is a person each student gets to know at the elementary level. She is always available/on call for any emergency that may arise with your child while he/she is at school. The nurse may be contacted between 8:30 – 3:00 p.m. Monday through Friday at 781-767-4600 (ext. 3) for any questions or concerns. Parents may also refer to the John F. Kennedy School Nurse's website for updated additional health information and resources. John F. Kennedy School encourages parents to keep the nurse informed of any changes in their child's health in order to ensure records remain current.

Sick and injured students will be assessed by the school nurse. The nurse will assume responsibility for determining whether your child should be sent home because of illness. If the determination is made that student needs to be dismissed from school, the nurse will contact the parents or emergency contacts. It is the expectation that parents will comply with nurse recommendations. Parents should make every effort to pick up a sick child within thirty minutes.

In an effort to keep the school healthy for your child, as well as all students, please keep your child home from school if your child has the following:

- Your child has a fever of 100.0 or greater. Please note that your child should be fever free for 24 hours (without Tylenol/Motrin) before returning to school.
- Vomiting
- Eye drainage
- Skin rash
- Cold symptoms that would interfere with your child or classmate's learning

When in doubt, please call the nurse.

All health policies are based on recommendations and mandates from the Massachusetts Department of Public Health.

Screenings

The nurse conducts screenings including eyes, ears, height and weight. These screenings are conducted based on the Massachusetts Department of Health Recommendations.

They must include the parent's work phone numbers, cell phones, and the phone numbers of at least two local family members, neighbors, or friends who may pick up your child if a parent cannot be reached. Please do not list emergency numbers of individuals who live a distance from the school. A sick child must be sent home as soon as reasonably possible.

Use of Crutches on School Grounds

If a student needs to utilize crutches, ace bandages or any other adaptive device due to illness or injury, the school requires a medical note from a doctor for school health records. This medical note should be issued from a doctor stating the reason for the adaptive device and any/all accommodations that will be required (i.e. excusal from physical education class). No student should come to school with adaptive devices without first consulting with a doctor.

- Under the supervision of the school nurse, oral medication may be administered on a long-term basis, if a physician’s order for administration and a parent permission note is on file with the school nurse.

There may be times when it is necessary to obtain more information about a medication or a medical condition before the medication or a medical/health plan can be safely implemented for your child. Examples include: the dosage, side effects, duration of the condition, reason for the medication, limitations while using medication, physical limitations, or monitoring of specific symptoms. The school nurse shall communicate with the student’s physician in accordance with FERPA regulations to maintain confidentiality while maintaining the health and well being of your child. APPENDIX

POLICY PROHIBITING BULLYING

The Holbrook Public Schools is committed to maintaining a school environment where students are free from bullying and cyberbullying and the effects thereof. We further recognize that students may be more vulnerable to bullying based upon actual or perceived differences related to race, color, religion, ancestry, national origin, sex, socio-economic status, homelessness, academic status, gender identity or expression, physical appearance, pregnant or parenting status, sexual orientation, mental, physical developmental or sensory disability or by associations with other people who have one or more of these characteristics. We will provide support to students whose vulnerability is brought to the attention of a teacher, guidance counselor or administrator through observation or direct report from a student, staff member or parent/guardian. This support may be in the form of counseling, education to support both the student's ability to report bullying and his/her skills, knowledge and strategies to respond to bullying or harassment. Acts of bullying and cyberbullying are prohibited:

- (i) on school grounds, property immediately adjacent to school grounds, at a school-sponsored or school-related activity, function or program whether on or off school grounds, at a school bus stop, on a school bus or other vehicle owned, leased or used by the school district; or through the use of technology or an electronic device owned, leased or used by the school district and
- (ii) at a location, activity, function or program that is not school-related, or through the use of technology or an electronic device that is not owned, leased or used by the school district, if the acts create a hostile environment at school for the target, infringes on the rights of the target at school or materially and substantially disrupts the education process or the orderly operation of a school.

Retaliation against a person who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying also is prohibited.

ACCESS TO RESOURCES AND SERVICES

A. Identifying Resources

Through its Guidance Teams, each school has a clearly defined process for identifying students who may need counseling and other services for targets, aggressors, and their families. The district reviews staffing needs annually and has not identified significant service gaps. Resources are also allocated on an annual basis.

B. Counseling and Other Services

As a low incidence district for ELL students, the district does not provide counseling services in a student's native language. However, through its ELL program, these students will be provided translation services on as needed format.

Through the special education department, the needs of students with disabilities who may be vulnerable to bullying and harassment will be reviewed by teachers and administrators. Social skills programs are provided by classroom teachers and counseling staff through research-based programs such as Second Step. These all provide the foundation for a common language about the development of social competency skills and problem-solving techniques. In addition, the Guidance Teams provide consultation and more intensive services to those in need, including behavioral intervention plans and individualized therapeutic classroom programs.

C. Students with Disabilities

As required by M.G.L. c. 71B, § 3, and as amended by Chapter 92 of the Acts of 2010, when the special education department determines the student has a disability that affects social skills development or that may make him/her vulnerable to bullying, harassment, or teasing because of that disability, the Team will consider what should be included in the IEP to develop the student's skills and proficiencies to avoid and respond to bullying, harassment, or teasing.

D. Students Vulnerable to Bullying.

We recognize that students may be more vulnerable to bullying based upon actual or perceived differences related to race, color, religion, ancestry, national origin, sex, socio-economic status, homelessness, academic status, gender identity or expression, physical appearance, pregnant or parenting status, sexual orientation, mental, physical developmental or sensory disability or by associations with other people who have one or more of these characteristics. We will provide support to students whose vulnerability is brought to the attention of a teacher, guidance counselor or administrator through observation or direct report from a student, staff member or parent/guardian. This support may be in the form of counseling, education to support both the student's ability to report bullying and his/her skills, knowledge and strategies to respond to bullying or harassment.

E. Referral to Outside Services

The guidance office in each school has a listing of agencies to refer students and families either individually or as a group to support their needs. Though these agencies are not sponsored by the school district, we have a close professional working relationship that allows us to provide direction to students or parents seeking support. These agencies include mental health agencies, social workers, psychologists, psychiatrists, counseling services, and hospitals. Referrals may be made by school counselors, nurses, principals, and other school personnel.

ACADEMIC AND NON-ACADEMIC ACTIVITIES

A. Specific Bullying Prevention Approaches

The district uses several research-based programs to develop social competency and to educate students about healthy relationships, problem-solving skills, and the dynamics of bullying and cyberbullying. These include:

- ✓ *PBIS*
- ✓ *Second Step*

Counseling staff teach related skills through the guidance curriculum, as well as inform students about the district's Bullying Prevention and Intervention Plan, which will be reviewed annually with students. School-based programs create school-wide awareness of important issues that support a safe school environment.

B. General Teaching Approaches that Support Bullying Prevention Efforts

The district supports approaches that are integral to establishing a safe and supportive school environment. The following best practices underscore the importance of our bullying intervention and prevention initiatives:

- ✓ setting clear expectations for students and establishing school and classroom routines;
- ✓ creating safe school and classroom environments for all students, including for students with disabilities, lesbian, gay, bisexual, transgender students, and homeless students;
- ✓ using appropriate and positive responses and reinforcement, even when students require discipline;
- ✓ using positive behavioral supports;
- ✓ encouraging adults to develop appropriate positive relationships with students;
- ✓ modeling, teaching, and rewarding pro-social, healthy, and respectful behaviors;
- ✓ using positive approaches to behavioral health, including collaborative problem-solving, conflict resolution training, teamwork, and positive behavioral supports that aid in social and emotional development;
- ✓ using the Internet safely; and
- ✓ supporting students' interest and participation in non-academic and extracurricular activities, particularly in their areas of strength.

PROHIBITION AGAINST BULLYING

Acts of bullying, which include cyberbullying, are prohibited: on school grounds, at a school-sponsored or school-related activity, function, or program whether on or off school grounds, on a school bus, or through the use of technology or an electronic device owned by the school district.

Acts of bullying, which include cyberbullying, are prohibited: at a location, activity, function, or program that is not school-related through the use of technology or an electronic device that is

not owned by the school district, if the acts create a hostile environment at school for the target or witnesses, infringe on their rights at school, or materially and substantially disrupt the education process or the orderly operation of a school.

Retaliation against a person who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying is also prohibited. As stated in M.G.L. c. 71, § 37O, nothing in this Plan requires the district or school to staff any non-school related activities, functions, or programs.

4. cyberbullying
5. physical violence
6. theft or destruction of school or personal property
7. sexual, religious, or racial harassment [See also – (must have policy on harassment)]
8. public humiliation
9. social exclusion, including incitement and or coercion
10. spreading of falsehoods or rumors

Behavior must meet three criteria to be considered bullying:

1. The behavior is repetitive. If a behavior occurs only once, it may violate the code of conduct, but it is not bullying.
2. The behavior is either unwanted, offensive, threatening, insulting, or humiliating; or the behavior causes the target to feel stressed, injured or threatened to the point that it impacts his/her educational experience or affects the school environment.
3. There is an imbalance of power between the target and the aggressor. Children who engage in peer aggression have more power than the target. The power advantage may be due to social status, age, size, and/or popularity.

Cyberbullying is bullying through the use of technology or electronic devices such as telephones, cell phones, computers, and the Internet. It includes, but is not limited to, email, instant messages, text messages, and Internet postings.

Hostile environment is a situation in which bullying causes the school environment to be permeated with intimidation, ridicule, or insult that is sufficiently severe or pervasive to alter the conditions of a student's education.

Retaliation is any form of intimidation, reprisal, or harassment directed against a student who reports bullying, provides information during an investigation of suspected bullying, or witnesses suspected bullying or harassment.

Staff includes educators, administrators, counselors, school nurses, cafeteria workers, custodians, bus drivers, athletic coaches, advisors to extracurricular activities, support staff, and paraprofessionals.

Target is a student against whom bullying, cyberbullying, harassment or retaliation has been perpetrated.

POLICIES AND PROCEDURES FOR REPORTING AND RESPONDING TO BULLYING AND RETALIATION

A. Reporting bullying or retaliation.

Reports of bullying or retaliation may be made by staff, students, parents or guardians, or others, and may be oral or written. Oral reports made by or to a staff member shall be recorded in

writing. A school or district staff member is required to report immediately to the principal or designee any instance of bullying or retaliation.

Use of an Incident Reporting Form is not required as a condition of making a report. The school or district will: 1) include a copy of the Incident Reporting Form in the beginning of the year packets for students and parents or guardians; 2) make it available in the school's main office, the counseling office, the school nurse's office, and other locations determined by the principal or designee; and 3) post it on the school's website. The Incident Reporting Form will be made available in the most prevalent language(s) of origin of students and parents or guardians.

At the beginning of each school year, the school or district will provide the school community, including administrators, staff, students, and parents or guardians, with written notice of its policies for reporting acts of bullying and retaliation. A description of the reporting procedures and resources, including the name and contact information of the principal or designee, will be incorporated in student and staff handbooks, on the school or district website, and in information about the Plan that is made available to parents or guardians.

1. Reporting by Staff

A staff member will report immediately to the principal or designee when he/she witnesses or becomes aware of conduct that may be bullying or retaliation. In the event of an allegation against the principal, the matter should be reported to the superintendent and if against the superintendent, to the chair of the school committee. *(In such circumstances the superintendent or school committee chair, rather than the principal will take responsibility for the steps outlined in these policies and procedures).* The requirement to report to the principal or designee does not limit the authority of the staff member to respond to behavioral or disciplinary incidents consistent with school or district policies and procedures for behavior management and discipline. *In the

2. Reporting by Students, Parents or Guardians, and Others

The school or district expects students, parents or guardians, and others who witness or become aware of an instance of bullying or retaliation involving a student to report it to the principal or designee (or in the case of an allegation against the principal, to the superintendent and if against the superintendent, to the chair of the school committee). Reports may be made anonymously, but no disciplinary action will be taken against an alleged aggressor solely on the basis of an anonymous report. Students, parents or guardians, and others may request assistance from a staff member to complete a written report. Students will be provided practical, safe, private, and age-appropriate ways to report and discuss an incident of bullying with a staff member, or with the principal or designee.

B. Responding to a report of bullying or retaliation.

1. Safety

Before fully investigating the allegations of bullying or retaliation, the principal or designee will take steps to assess the need to restore a sense of safety to the alleged target and/or to protect the alleged target from possible further incidents. Responses to promote safety may include, but not be limited to, creating a personal safety plan; pre-determining seating arrangements for the target and/or the aggressor in the classroom, at lunch, or on the bus; identifying a staff member who will act as a "safe person" for the target; and altering the aggressor's schedule and access to the target. The principal or designee will take additional steps to promote safety during the course of and after the investigation, as necessary.

The principal or designee will implement appropriate strategies for protecting from bullying or retaliation a student who has reported bullying or retaliation, a student who has witnessed bullying or retaliation, a student who provides information during an investigation, or a student who has reliable information about a reported act of bullying or retaliation.

2. Obligations to Notify Others

a. Notice to parents or guardians.

Upon determining that bullying or retaliation has occurred, the principal or designee will promptly notify the parents or guardians of the target and the aggressor of this, and of the procedures for responding to it. There may be circumstances in which the principal or designee contacts parents or guardians prior to any investigation. Notice will be consistent with state regulations at 603 CMR 49.00.

b. Notice to Another School or District.

If the reported incident involves students from more than one school district, charter school, non-public school, approved private special education day or residential school, or collaborative school, the principal or designee first informed of the incident will promptly notify by telephone the principal or designee of the other school(s) of the incident so that each school may take appropriate action. All communications will be in accordance with state and federal privacy laws and regulations, and 603 CMR 49.00.

c. Notice to Law Enforcement.

At any point after receiving a report of bullying or retaliation, including after an investigation, if the principal or designee has a reasonable basis to believe that criminal charges may be pursued against the aggressor, the principal will notify the local law enforcement agency. Notice will be consistent with the requirements of 603 CMR 49.00 and locally established agreements with the local law enforcement agency. Also, if an incident occurs on school grounds and involves a former student under the age of 21 who is no longer enrolled in school, the principal or designee shall contact the local law enforcement agency if he or she has a reasonable basis to believe that criminal charges may be pursued against the aggressor.

In making this determination, the principal will, consistent with the Plan and with applicable school or district policies and procedures, consult with the school resource officer, if any, and other individuals the principal or designee deems appropriate.

C. Investigation.

The principal or designee will investigate promptly all reports of bullying or retaliation and, in doing so, will consider all available information known, including the nature of the allegation(s) and the ages of the students involved.

During the investigation the principal or designee will, among other things, interview students, staff, witnesses, parents or guardians, and others as necessary. The principal or designee (or whoever is conducting the investigation) will remind the alleged aggressor, target, and witnesses that retaliation is strictly prohibited and will result in disciplinary action. Interviews may be conducted by the principal or designee, other staff members as determined by the principal or designee, and in consultation with the school counselor, as appropriate. To the extent practicable, and given his/her obligation to investigate and address the matter, the principal or designee will maintain confidentiality during the investigative process. The principal or designee will maintain a written record of the investigation.

Procedures for investigating reports of bullying and retaliation will be consistent with school or district policies and procedures for investigations. If necessary, the principal or designee will consult with legal counsel about the investigation.

D. Determinations.

The principal or designee will make a determination based upon all of the facts and circumstances. If, after investigation, bullying or retaliation is substantiated, the principal or designee will take steps reasonably calculated to prevent recurrence and to ensure that the target is not restricted in participating in school or in benefiting from school activities. The principal or designee will: 1) determine what remedial action is required, if any, and 2) determine what responsive actions and/or disciplinary action is necessary.

Depending upon the circumstances, the principal or designee may choose to consult with the students' teacher(s) and/or school counselor, and the target's or aggressor's parents or guardians,

to identify any underlying social or emotional issue(s) that may have contributed to the bullying behavior and to assess the level of need for additional social skills development.

The principal or designee will promptly notify the parents or guardians of the target and the aggressor about the results of the investigation and, if bullying or retaliation is found, what action is being taken to prevent further acts of bullying or retaliation. All notice to parents must comply with applicable state and federal privacy laws and regulations. Because of the legal requirements regarding the confidentiality of student records, the principal or designee cannot report specific information to the target's parent or guardian about the disciplinary action taken unless it involves a "stay away" order or other directive that the target must be aware of in order to report violations.

E. Responses to Bullying.

1. Teaching Appropriate Behavior Through Skills-Building for Students

Upon the principal or designee determining that bullying or retaliation has occurred, the law requires that the school or district use a range of responses that balance the need for accountability with the need to teach appropriate behavior. M.G.L. c. 71, § 37O(d)(v).

Skill-building approaches that the principal or designee may consider include:

- offering individualized skill-building sessions based on the school's/district's anti-bullying program;
- providing relevant educational activities for individual students or groups of students, in consultation with guidance counselors and other appropriate school personnel;
- implementing a range of academic and nonacademic positive behavioral supports to help students understand pro-social ways to achieve their goals;
- meeting with parents and guardians to engage parental support and to reinforce the anti-bullying curricula and social skills building activities at home;
- adopting behavioral plans to include a focus on developing specific social skills; and
- making a referral for evaluation.

2. Taking Disciplinary Action

If the principal or designee decides that disciplinary action is appropriate for a student, the disciplinary action will be determined on the basis of facts found by the principal or designee, including the nature of the conduct, the age of the student(s) involved, and the need to balance accountability with the teaching of appropriate behavior. Discipline will be consistent with the Plan and with the school's or district's code of conduct.

Discipline procedures for students with disabilities are governed by the federal Individuals with Disabilities Education Improvement Act (IDEA), which should be read in cooperation with state laws regarding student discipline.

If the principal or designee determines that a student knowingly made a false allegation of bullying or retaliation, that student may be subject to disciplinary action.

If the principal or designee decides that disciplinary action is appropriate for a staff member, appropriate procedures set forth in applicable statutes, policies and/or collective bargaining agreements will be followed.

3. Promoting Safety for the Target and Others

The principal or designee will consider what adjustments, if any, are needed in the school environment to enhance the target's sense of safety and that of others as well. One strategy that the principal or designee may use is to increase adult supervision at transition times and in locations where bullying is known to have occurred or is likely to occur. Within a reasonable period of time following the determination and the ordering of remedial and/or disciplinary action, the principal or designee will contact the target to determine whether there has been a recurrence of the prohibited conduct and whether additional supportive measures are needed. If so, the principal or designee will work with appropriate school staff to implement them immediately.

COLLABORATION WITH FAMILIES

A. Parent Education and Resources

The district will offer education programs for parents and guardians that are focused on the parental components of the anti-bullying curricula and social competency programs used across the district. The programs may be offered in collaboration with the Holbrook Parent Education Group (HEPG), School Councils, Special Education Parent Advisory Council, or other parent or community organizations.

B. Notification requirements

Each year district will inform parents or guardians of enrolled students about the anti-bullying curricula that are being used. This notice will include information about the dynamics of bullying, including cyberbullying and online safety. The district will send parents written notice each year about the student-related sections of the Plan and the district's Internet safety policy. All notices and information made available to parents or guardians will be in available via our district and school webpages.

If either party is dissatisfied with the results of the investigation, he/she may direct his/her concerns in writing to the Superintendent or designee for further consideration. In addition, regardless of the outcome, school officials will inform parents about the Department of Elementary and Secondary Education Program Resolution System (PRS) and how to access that system. Information can be found at: <http://www.doe.mass.edu/pqa>, emails can be sent to compliance@doe.mass.edu or individuals can call 781-338-3700. Hard copies of this information is also available at the Superintendent's office.

RELATIONSHIP TO OTHER LAWS

Consistent with state and federal laws, and the policies of the school or district, no person shall be discriminated against in admission to a public school of any town or in obtaining the advantages, privilege and courses of study of such public school on account of race, color, sex, religion, national origin, or sexual orientation. Nothing in the Plan prevents the school or district from taking action to remediate discrimination or harassment based on a person's membership in a legally protected category under local, state, or federal law, or school or district policies.

In addition, nothing in the Plan is designed or intended to limit the authority of the school or district to take disciplinary action or other action under M.G.L. c. 71, §§ 37H or 37H½, other applicable laws, or local school or district policies in response to violent, harmful, or disruptive behavior, regardless of whether the Plan covers the behavior.

HARASSMENT BASED UPON PROTECTED CLASSIFICATIONS

Harassment in school or the workplace occurs when a student's or adult's behavior or inappropriate language is so severe and pervasive as to create a hostile, offensive or intimidating school or work environment by which a student's participation in school activities, or staff member's terms and conditions of employment, are adversely affected or are reasonably feared to be adversely affected. Harassment can include any unwelcome verbal, written or physical conduct which offends, denigrates or belittles any individual because of race, color, religion, national origin, marital status, sex, gender identity, sexual orientation or disability. Such conduct includes, but is not limited to, unsolicited derogatory remarks, or requests for sex, jokes, demeaning comments or behavior, slurs, mimicking, name calling, graffiti, innuendo, gestures, physical contact, stalking, threatening, bullying, extorting or display or circulation by any means of sexually suggestive written materials, forms of correspondence or pictures.

STUDENT COMPLAINT PROCEDURE FOR HARASSMENT

Any student who believes that he/she has been a victim of harassment by a member of the school staff should make a report to the Harassment Complaint Officer, the Director of Pupil Personnel, 781-767-1226, or the Building Principal. Harassment Complaint Forms are available in each school principal's office and in the central office. The Director or the Principal (or designee) is responsible for investigation such complaints, and if harassment is found, taking the steps necessary to prevent recurrence and to mitigate the harmful effects of the conduct.

INFORMAL EDUCATIONAL/RESOLUTION OPTION FOR PEER HARASSMENT

Any student, who believes that he/she has been harassed by another student, should report the incident to the Principal, Guidance Department or any staff member. While the Holbrook Public Schools acknowledges its obligation to investigate and address such complaints, it also acknowledges that communication, mediation, education, and counseling may sometimes be effective in resolving harassment complaints between and among students. Thus, counselors or administrative staff may propose such an informal option in appropriate circumstances, with the understanding that the informal option is never appropriate for severe or persistent harassment, or when there is retaliatory behavior or a significant imbalance in power between the parties. Informal procedures may include, but are not limited to:

With the presence of staff, a face-to-face or written communication between the alleged target and the student aggressor that includes:

1. An exact description of the behavior, including when and where it occurred:
2. A description of how the behavior made the victim feel – embarrassed, intimidated, angry, etc.:
3. A request that the behavior stop because it is harassment and is against the law; and
4. A statement that the behavior stops, nothing further will be said and no further action will be taken.
5. An agreement by the aggressor that the conduct will in fact stop

If resolution is reached, both parties will sign a statement. The Guidance Counselor will document the complaint, the meeting, and resolution. This documentation shall be kept in the Guidance Office. Within a reasonable time following this meeting, the Guidance Counselor or other staff member will meet with the complainant to confirm resolution of the situation.

In the event either student does not wish to participate or in the event participation does not lead to a resolution, the complaint will be forwarded to the Principal or Harassment Complaint Officer for formal investigation and disciplinary action, where appropriate. Further, at any time, the student has the option of filing a Harassment Complaint form with the complaint officer, Director of Pupil Personnel, 781-767-1226.

Harassment Complaint forms are available in each school principal's office and in the central office.

STUDENT RECORDS

Holbrook Public Schools Annual Notice The Family Education and Privacy Act Massachusetts Student Records Regulations

The Family Educational Rights and Privacy Act (FERPA) and the Massachusetts Student Records Regulations ("Regulations") together provide parents and eligible students (those who have reached that age of 14 or who have entered ninth grade) certain rights with respect to the student's education records. A general overview of those rights is provided below. Parents and students may obtain a complete copy of their rights under the Massachusetts Student Record Regulations by contacting their guidance counselor.

(a)The **right to access** the student's education records. Parents or eligible students should submit their request for access to the building principal. Access is generally provided within ten days of a request.

(b)**Access to Student Records by Non-Custodial Parents** – As set forth in the amended regulation, 603 CMR 23.07(5), non-custodial parents are eligible to obtain access to their children's student records unless the school or district has been given documentation that:

1. the non-custodial parent has been denied legal custody based on a threat to the safety of the student or to the custodial parent, or
2. the non-custodial parent has been denied visitation or has been ordered to supervised visitation, or
3. the non-custodial parent's access to the student or to the custodial parent has been restricted by a temporary or permanent protective order, unless the order or any subsequent court order specifically allows access to student record information.

Information about the procedures to be followed in releasing records to non-custodial parents is available from the Principal. Please see the complete text of the amended regulations available on the Department of Education's website, www.doe.mass.edu/lawsregs/.

(c)The **right to request amendment** of the student's education records. Parents or eligible students should direct their request to the principal, clearly identifying the part of the record they wish to have amended, and why.

(d)The **right to consent to disclosures** of personally identifiable information contained in the student's education records, except to the extent that FERPA and the Massachusetts regulations authorize disclosure without consent. One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests in the records. Such school officials include professional, administrative and clerical staff who are employed by or under agreement with the Holbrook Public Schools and who need access to a record in order to fulfill their duties. The Holbrook Public Schools also discloses student records without parent/eligible student consent to officials of other elementary or secondary schools in which a student enrolls, or seeks, intends, or is instructed to enroll upon receipt of a request from such school officials. As required by federal law, the Holbrook Public Schools routinely releases the name, address and telephone listing of secondary school students to military recruiters and to institutions of higher learning upon request. In the event a parent or eligible student objects to the release of any of the above information, the parent/eligible student may state that objection in writing to the principal. Absent receipt of a written objection for the parent or eligible student by 10 (ten) school days after the issuance of the student handbook, this information will be released without further notice or consent.

(e)The **right to file a complaint** concerning alleged failures by the District to comply with the regulations and laws governing student records. Complaints may be filed at the Massachusetts Department of Education, 350 Main Street, Malden, MA 02148. In addition, complaints relative to federal statutes and regulations governing student records may be filed with the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue SW, Washington DC.

PROCEDURES RELATING TO SUSPENSION FOR CONDUCT OTHER THAN STATUTORY OFFENSES

A. In-School Suspension For Less Than 10 Cumulative Days During A School Year

An in-school suspension is a removal of a student from regular classroom activities, but not from the school premises. The procedure for an in-school suspension of no more than (10) school days (consecutive or cumulatively for multiple infractions during the school year) will be as follows:

1. The administrator will inform the student of the disciplinary offense charged, the basis for the charge, and provide the student an opportunity to respond. If the administrator determines that the student committed the disciplinary offense, the administrator will inform the student of the length of the student's in-school suspension, which may not exceed 10 days, cumulatively or consecutively, in a school year.
2. On the same day as the in-school suspension decision, the administrator will make reasonable efforts to notify the parent orally of the disciplinary offense, the reasons for concluding that the student committed the infraction, and the length of the in-school suspension. The administrator will also invite the parent to a meeting to discuss the student's academic performance and behavior, strategies for student engagement, and possible responses to the behavior. Such meeting will be scheduled on the day of the suspension if possible, and if not, as soon thereafter as possible. If the administrator is unable to reach the parent after making and documenting at least (2) attempts to do so, such attempts will constitute reasonable efforts for purposes of orally informing the parent of the in-school suspension.
3. The administrator will send written notice to the student and parent about the in-school suspension, including the reason and the length of the in-school suspension, and inviting the parent to a meeting with the administrator to discuss the student's academic performance and behavior, strategies for student engagement and possible response to the behavior. Such meeting will be scheduled on the day of the suspension if possible, and if not, as soon thereafter as possible. If the administrator is unable to reach the parent after making and documenting at least (2) attempts to do so, such attempts shall constitute reasonable efforts for purposes of orally informing the parent of the in-school suspension.
4. The administrator will send written notice to the student and parent about the in-school suspension, including the reason and the length of the in-school suspension, and inviting the parent to a meeting with the principal for the purpose set forth above, if such meeting has not already occurred. The administrator will deliver such notice on the day of the suspension by hand-delivery, certified mail, first-class mail, email to an address provided by the parent for school communications, or by other method of delivery agreed to by the administrator and the parent.

An in-school suspension of more than 10 cumulative days in a school year will be subject to the procedures for long-term suspension.

B. Procedures For Short-Term, Out-Of-School Suspensions (10 Cumulative Days Or Less In A School Year)

Except in the case of an Emergency Removal as provided on page 33, prior to imposing a short-term out-of-school suspension (10 days or less in a school year) an administrator will provide the student and his/her parent oral and written notice and an opportunity to participate in an informal hearing.

1. **Notice:** The written notice to the student and the parent will be in English and in

the primary language of the home if other than English, or other means of communication where appropriate and will include the following:

- a) the disciplinary offense;
- b) the basis for the charge;
- c) the potential consequences, including the potential length of the student's suspension;
- d) the opportunity for the student to have a hearing with the administrator concerning the proposed suspension, including the opportunity to dispute the charges and to present the student's explanation of the alleged incident, and for the parent to attend the hearing;
- e) the date, time, and location of the hearing;
- f) the right of the student and the student's parent to interpreter services at the hearing if needed to participate;

Written notice to the parent may be made by hand delivery, first-class mail, certified mail, email to an address provided by the parent for school communications, or any other method of delivery agreed to by the school and parent.

2. **Efforts to Involve Parent:** The administrator will make reasonable efforts to include the parent in the hearing. To conduct a hearing without the parent present, the administrator must be able to document reasonable efforts to include the parent. The administrator is presumed to have made reasonable efforts if the administrator has sent written notice and has documented at least two (2) attempts to contact the parent in the manner specified by the parent for emergency notification.

3. **Format of Hearing:** The administrator will discuss the disciplinary offense, the basis for the charge, and any other pertinent information. The student also will have an opportunity to present information, including mitigating facts, that the administrator should consider in determining whether other remedies and consequences may be appropriate. The administrator will provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the administrator should consider in determining consequences for the student.

4. **Decision:** The administrator will provide written notice to the student and parent of his/her determination and the reasons for it, and, if the student is suspended, the type and duration of suspension and the opportunity to make up assignments and such other school work as needed to make academic progress during the period of removal. The notice of determination may be in the form of an update to the original written notice of hearing.

C. Procedures For Long-Term Suspension

Except in the case of an Emergency Removal provided on page 33, prior to imposing a long-term suspension (more than 10 days of suspension, whether in-school or out-of-school, whether consecutive or cumulative for multiple offenses during a school year), an administrator will follow the procedures for short-term suspension plus additional procedures as follows:

1. **Notice:** The notice will include all of the components for a short-term suspension in Section C above, plus the following:
 - a) In advance of the hearing, the opportunity to review the student's record and the documents upon which the administrator may rely in making a determination to suspend the student or not;
 - b) the right to be represented by counsel or a lay person of the student's choice, at the student's/parent's expense;
 - c) the right to produce witnesses on his or her behalf and to present the student's explanation of the alleged incident, but the student may not be compelled to do so;
 - d) the right to cross-examine witnesses presented by the school district;
 - e) the right to request that the hearing be recorded by the administrator, and a copy of the audio recording provided to the student or parent

- upon request; and
- f) the right to appeal administrator's decision to impose long-term suspension to the superintendent.

2. Format of Hearing: The Hearing will afford the rights set forth in the notice above. The administrator will also provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the administrator should consider in determining consequences for the student.

3. Decision: Based on the evidence, the administrator will determine whether the student committed the disciplinary offense, and, if so, after considering mitigating circumstances and alternatives to long-term suspension, what remedy or consequence will be imposed, in place of or in addition to a long-term suspension. The administrator will send the written determination to the student and parent by hand-delivery, certified mail, first-class mail, email to an address provided by the parent for school communications, or any other method of delivery agreed to by the school and the parent. If the administrator decides to suspend the student on a long-term basis, the written determination will:

1. Identify the disciplinary offense, the date on which the hearing took place, and the participants at the hearing;
2. Set out the key facts and conclusions reached;
3. Identify the length and effective date of the suspension, as well as a date of return to school;
4. Include notice of the student's opportunity to receive education services to make academic progress during the period of removal from school (if more than 10 cumulative days);
5. Inform the student of the right to appeal the administrator's decision to the superintendent or designee. Notice of the right of appeal will be in English and the primary language of the home if other than English, or other means of communication where appropriate, and will include the following information stated in plain language:
 - a) the process for appealing the decision, including that the student or parent must file a written notice of appeal with the superintendent within five (5) calendar days of the effective date of the long-term suspension; provided that within the five (5) calendar days, the student or parent may request and receive from the superintendent an extension of time for filing the written notice for up to seven (7) additional calendar days; and that
 - b) the long-term suspension will remain in effect unless and until the superintendent decides to reverse the administrator's determination on appeal.

No long-term suspension will last more than 90 school days in a school year nor extend beyond the end of the school year in which such suspension is imposed.

D. Exception For Emergency Removal

Notwithstanding the provisions for short or long-term suspension set forth above, a student who is charged with a disciplinary offense may be removed temporarily from school if the continued presence of the student poses a danger to persons or property, or materially and substantially disrupts the order of the school, and, in the administrator's judgment, there is no alternative available to alleviate the danger or disruption.

The administrator will immediately notify the superintendent in writing of the removal and the reason for it, and describe the danger [or disruption] by the student.

The temporary removal will not exceed two (2) school days following the day of the emergency removal, during which time the administrator will provide the following, as applicable to the length of suspension:

- Make immediate and reasonable efforts to orally notify the student and the student's parent of the emergency removal, the reason for the need for emergency removal, and other applicable matters;
- Provide written notice to the student and parent as provided in Section C or D above, as applicable;
- Provide the student an opportunity for a hearing with the administrator, as applicable, and the parent an opportunity to attend the hearing, before the expiration of the two (2) school days, unless an extension of time for hearing is otherwise agreed to by the administrator, student, and parent.
- Render a decision orally on the same day as the hearing, and in writing no later than the following school day.

An administrator may not remove a student from school on an emergency basis for a disciplinary offense until adequate provisions have been made for the student's safety and transportation.

E. Appeal To The Superintendent

If a decision by an administrator, following the parent meeting, results in suspension of a student for more than 10 cumulative school days for the school year, the student may appeal the decision to the superintendent. In order to do so the student or parent must file a notice of appeal with the superintendent within five (5) calendar days with a seven (7) day postponement option. The superintendent must hold the hearing within three (3) school days of the student's request, unless the student or parent requests an extension of up to seven (7) additional calendar days. If the appeal is not filed within this time frame, the superintendent may deny the appeal, or may allow the appeal in his or her discretion, for good cause.

The following apply:

- The superintendent will make a good faith effort to include the parent in the hearing. The superintendent will be presumed to have made a good faith effort if he or she has made efforts to find a day and time for the hearing that would allow the parent and superintendent to participate. The superintendent will send written notice to the parent of the date, time, and location of the hearing.
- The superintendent will conduct a hearing to determine whether the student committed the disciplinary offense of which the student is accused, and if so, what the consequence will be. The superintendent will arrange for an audio recording of the hearing, a copy of which will be provided to the student or parent upon request. The superintendent will inform all participants before the hearing that an audio record will be made of the hearing and a copy will be provided to the student and parent upon request.
- The student will have all the rights afforded the student at the administrator's hearing for long-term suspension as described in Section D above.
- The superintendent will issue a written decision within five (5) calendar days of the hearing which meets the requirements for a long-term suspension as described in Section D above. If the superintendent determines that the student committed the disciplinary offense, the superintendent may impose the same or a lesser consequence than the administrator, but will not impose a suspension greater than that imposed by the administrator's decision.

The decision of the superintendent constitutes the final decision of the school district.

PROCEDURES FOR STATUTORY OFFENSES – PRINCIPAL’S AUTHORITY FOR EXPULSION

Mass. Gen. Laws, Chapter 71 Section 37H (Controlled Substances, Dangerous Weapons And Assaults On Educational Personnel) states as follows:

1. Any student who is found on school premises or at school-sponsored or school-related events, including athletic games, in possession of a dangerous weapon, including, but not limited to, a gun or a knife; or a controlled substance as defined in chapter ninety-four C, including but not limited to, marijuana, cocaine, and heroin, may be subject to expulsion from the school or school district by the principal.
2. Any student who assaults a principal, assistant principal, teacher, teacher’s aide or other educational staff on school premises or at school-sponsored or school-related events, including athletic games, may be subject to expulsion from the school or school district by the principal.
3. Any student who is charged with a violation of either paragraph (a) or (b) shall be notified in writing of an opportunity for a hearing; provided, however, that the student may have representation, along with the opportunity to present evidence and witnesses at said hearing before the principal. After said hearing, a principal may, in his discretion, decide to suspend rather expel a student who has been determined by the principal to have violated either paragraph (a) or (b).
4. Any student who has been expelled from a school district pursuant to these provisions shall have the right to appeal to the Superintendent. The expelled student shall have ten days from the date of the expulsion in which to notify the Superintendent of his appeal. The subject matter of the appeal not be limited solely to a factual determination of whether the student has violated any provisions of this section.
5. Any school district that suspends or expels a student under this section shall continue to provide educational services to the student during the period of suspension or expulsion under section 21 of chapter 76. SHORT TERM SUSPENSION PENDING FORMAL HEARING FOR OFFENSES UNDER SECTION 37

When considering the exclusion of a student from school for possession of a dangerous weapon, possession of a controlled substance (such as marijuana, cocaine, or prescription drugs not authorized by the school nurse), or assault on teachers, an administrator may place a student on short term suspension (ten days or less) based upon an informal hearing, to be followed by a formal hearing before the Principal within that period of suspension to determine whether to take additional disciplinary action, up to and including expulsion from school.

The informal hearing will take place prior to the first day of the short term suspension unless the student presents a danger or substantial disruption to the educational process, and will include the following:

- a. Oral or written notice of the charges.
- b. If the student denies the charges, an oral or written explanation of the evidence against him/her.
- c. An opportunity to present his/her version of the relevant facts.

If the administrator deems delay of the hearing necessary to avoid danger or substantial disruption, this process may occur immediately after, rather than before, the first day of suspension. (Goss vs. Lopez, 419 U.S. 565, 1975).

Mass. Gen. Laws, Chapter 71 Section 37H1/2 (Felony Complaints And Felony Convictions) States As Follows:

Notwithstanding the provisions of section eighty-four and sections sixteen and seventeen on chapter seventy-six:

1. Upon the issuance of a criminal complaint charging a student with a felony or upon the issuance of a felony delinquency complaint against a student, the principal or headmaster of a school in which the student is enrolled may suspend such student for a period of time determined appropriate by said principal or headmaster if said principal or headmaster determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school. The student shall receive written notification of the charges and the reasons for such suspension prior to such suspension taking effect. The student shall also receive written notification of his right to appeal and the process for appealing such suspension; provided, however, that such suspension shall remain in effect prior to any appeal hearing conducted by the Superintendent. The student shall have the right to appeal the suspension to the Superintendent. The student shall notify the Superintendent in writing of his request for an appeal no later than five calendar days following the effective date of the suspension. The Superintendent shall hold a hearing with the student and the student's parent(s)/guardian(s) within three (3) calendar days of the student's request for an appeal. At the hearing, the student shall have the right to present oral and written testimony on his behalf, and shall have the right to counsel. The Superintendent shall have the authority to overturn or alter the decision of the principal or headmaster, including recommending an alternate educational program for the student. The Superintendent shall render a decision on the appeal within five (5) calendar days of the hearing. Such decision shall be the final decision of the city, town or regional school district with regard to the suspension.
2. Upon a student being convicted of a felony or upon an adjudication or admission in court of guilt with respect to such a felony or felony delinquency, the principal or headmaster of a school in which the student is enrolled may expel said student if such principal or headmaster determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school. The student shall receive written notification of the charges and reasons for such expulsion prior to such expulsion taking effect. The student shall also receive written notification of his right to appeal and the process for appealing such expulsion; provided, however, that the expulsion shall remain in effect prior to any appeal hearing conducted by the Superintendent. The student shall have the right to appeal the expulsion to the Superintendent. The student shall notify the superintendent, in writing, of his request for an appeal no later than five (5) calendar days following the effective date of the expulsion. The superintendent shall hold a hearing with the student and the student's parent(s)/guardian(s) within three calendar days of the expulsion. At the hearing, the student shall have the right to present oral and written testimony on his behalf, and shall have the right to counsel. The superintendent shall have the authority to overturn or alter the decision of the principal; or headmaster, including recommending and alternate educational program for the student. The superintendent shall render a decision on the appeal within five calendar days of the hearing. Such decision shall be the final decision of the city, town or regional school district with regard to the expulsion. Upon expulsion of such student, no school or school district shall be required to provide educational services to such student.
3. Any school district that suspends or expels a student under this section shall continue to provide educational services to the student during the period of

suspension or expulsion under section 21 of chapter 76. If the student moves to another district during the period of suspension or expulsion, the new district of residence shall either admit the student to the school or provide educational services to the student in an education service plan, under section 21 of chapter 76.

When considering a suspension/expulsion of a student charged with/convicted of felony, the Principal will use the standards and procedures set forth in M.G.L. c.71, §37H1/2 above. In addition, prior to initiating such procedures, the Principal may meet informally with the student and/or his parents to review the charge and the applicable standards if the Principal deems appropriate.

Unless the student presents a danger or substantial disruption to the education process, the student will receive the following prior to a short-term suspension and may be allowed to complete that day in school:

- Oral or written notice of the charges or rule that has been broken.
- If the student denies the charges, an oral or written explanation of the evidence against him/her.
- An opportunity to present his/her version of the relevant facts and reasons or rationale for the behavior.
- A written statement sent to the parent/guardian.
- A concerted effort to notify parent/guardian by telephone, as well as the written statement.
